

Commodore Amiga: Commodore Amiga: Silkworm

<http://www.Insert-Disk.com> proudly presents "Silkworm" for the Commodore Amiga 500/1200.

First level played for fun.

One of the all time great shooters. Simple graphics and simple gameplay but this game has stood the test of time as a hugely playable game on multiple formats. I liked this one so much I bought an original board for my arcade machine, hours of fun!
